Service the Audience Response System offers to conference planners

1. Conference Management
2. Attendee Interaction
3. Data Analysis after conferences

Contact: +27 12 6635200 www.iees.co.za (ARS interactive division)
List Management
For training and test

Attendance Management
For the attendance statistics

Grouping Management
For data classification and analysis

Contact: +27 12 6635200 www.iees.co.za (ARS interactive division)
No matter what kind of responses it requires, attendees only need to use keypads to express their opinions on items showed.
Data Analysis after conferences

System analyses data automatically, displays in various forms and thus helps conference planners make scientific effectiveness evaluation of conferences.
